

CONTENTS

1. Placental Development and Anatomy	1
Early Placental Development: Trophoblast Differentiation and Implantation	1
Later Placental Development: Disc Formation	5
Vascular Circulation of the Placenta	12
Functions of the Syncytiotrophoblast	12
Histologic Anatomy	13
2. Placental Examination	25
Indications for Placental Examination	25
Gross Examination of the Placenta	25
Preparation	25
Set Up	27
Special Studies	27
Photography	27
Examination Technique	28
Tricks and Tips	32
Multiple Gestation Placentas	32
Specimen Fixation and Storage	36
3. The Normal Placenta: Gross Findings	39
Umbilical Cord	39
Membranes	40
Disc Measurement, Shape, and Weight	42
Chorionic Plate	42
Vasculature	43
Basal Plate	45
Parenchyma	46
Artifacts	46
4. The Umbilical Cord	49
4-1: Introduction	49
4-2: Umbilical Insertional Anomalies	50
Marginal Insertion of the Umbilical Cord	51
Membranous or Velamentous Insertions of the Umbilical Cord	52
Furcate Insertion of the Umbilical Cord	54
Amniotic Web at Umbilical Cord Insertion	54
4-3: Umbilical Cord Length	55
Long Umbilical Cord	56
Short Umbilical Cord	57
4-4: Umbilical Cord Discoloration	59

4-5:	Umbilical Cord Diameter.	62
	Thin or Lean Umbilical Cord (Thin-Cord Syndrome).	63
	Thick Umbilical Cord	64
4-6:	Umbilical True Knots	72
	True Knot of the Umbilical Cord (Singleton)	72
	Umbilical Cord Knots: Multiple Gestation	73
4-7:	Umbilical Cord Coiling	74
	Hypercoiled Umbilical Cords.	76
	Hypo-coiled or Flat Umbilical Cords	77
	Coil Pattern	79
4-8:	Umbilical Cord Vessel Number Abnormalities	79
	Single Umbilical Artery	79
	Increased Vessel Number (Supernumerary Umbilical Vessels, Four-Vessel Umbilical Cord)	81
4-9:	Umbilical Thrombus, Varix, and Aneurysm	83
	Umbilical Cord Thrombus.	83
	Umbilical Cord Vein Varix.	85
	Umbilical Cord Arterial Aneurysm	86
4-10:	Umbilical Cord Surface Lesions (Abscesses and Ulcers)	87
4-11:	Umbilical Cord Inflammation (Fetal Inflammatory Response, Funisitis, Umbilical Vasculitis, Umbilical Arteritis or Phlebitis, Necrotizing Funisitis) . .	91
4-12:	Meconium-Associated Myonecrosis	95
4-13:	Umbilical Cord Embryologic Remnants	98
	Allantoic Duct Remnant (Urachal Duct Remnant)	98
	Vitelline Duct Remnant (Omphalomesenteric Duct Remnant)	100
	Embryonic Vascular Remnants	101
5.	Placental Membranes	117
5-1:	Introduction.	117
5-2:	Insertional Anomalies, Circummarginate or Circumvallate Placentation, and Placenta Extrachorialis	119
5-3:	Placenta Membranacea (Placenta Diffusa)	122
5-4:	Membrane Discoloration.	123
	Yellow/Green Discoloration: Acute Chorioamnionitis	123
	Green/Brown Discolored Membranes: Meconium-Stained Membranes.	123
	Brown/Tan and Cloudy Discoloration: Diffuse Chorioamniotic Hemosiderosis	131
	Pink/Tan and Dull Discoloration: Autolysis from Retention of an Intrauterine Fetal Demise	133
5-5:	Acute Chorioamnionitis, Maternal and/or Fetal Inflammatory Response, Yellow/Green Discolored Membranes	133
5-6:	Chronic Chorioamnionitis	146

5-7:	Nodules in Membranes	148
	Yolk Sac Remnant	148
	Squamous Metaplasia	149
	Amnion Nodosum	150
	Chorion Nodosum	152
5-8:	Membrane Associated Masses	153
	Fetus Papyraceus	153
5-9:	Amniotic Bands	154
5-10:	Decidual Arteriopathy and Acute Atherosclerosis	157
5-11:	Decidual Lamellar Necrosis	162
5-12:	Microscopic Chorionic Pseudocysts	163
5-13:	Vacuolated Amniocytes	164
6.	Chorionic Plate	181
	6-1: Examination of Chorionic Plate	181
	6-2: Chorionic Cysts	181
	6-3: Massive Subchorionic Thrombohematoma	183
	6-4: Teratoma	186
	6-5: Eosinophilic/T-Cell Chorionic Vasculitis	188
7.	Basal Plate	193
	7-1: Introduction	193
	7-2: Abruptio	193
	7-3: Inflammation	197
	Chronic Deciduitis	197
	Diffuse Decidual Leukocytoclastic Necrosis	199
	7-4: Adherent Myometrial Fibers (Basal Plate Myometrial Fibers)	200
8.	Parenchyma	207
	8-1: Introduction	207
	8-2: Developmental Pathologies	207
	Villous Architectural Pathologies	207
	Distal Villous Hypoplasia	208
	Accelerated Villous Maturation	211
	Delayed Villous Maturation	213
	Placental Mesenchymal Dysplasia	215
	8-3: Maternal Vascular Malperfusion	218
	8-4: Fetal Vascular Malperfusion	224
	8-5: Villitis	231
	Acute Villitis	232
	Chronic Villitis, Infectious	238
	Chronic Villitis of Unknown Etiology	248
	8-6: Vascular Proliferative Lesions (Chorangiosis, Chorangiomas)	253

	Chorangiomas	253
	Chorangiomas	256
8-7:	Intervillous Pathology: Not Masses	258
	Massive Perivillous Fibrin Deposition/Maternal Floor Infarction	258
	Chronic Histiocytic Intervillositis	262
	Sickled Maternal Red Blood Cells	267
8-8:	Parenchymal Lesions: Masses	269
	Placental Infarcts	269
	Intervillous Thrombus	275
	Intervillous Fibrin Plaque	277
	Chorangioma	281
	Heterotopias (Adenomas, Rests)	284
	Intraplacental Choriocarcinoma	286
	Metastases	288
	Intraplacental or Membranous Leiomyoma	291
	Inflammatory Myofibroblastic Tumor	293
8-9:	Villous Edema: Nonhydropic	296
8-10:	Inborn Errors of Metabolism (Lysosomal Storage Disease)	298
9.	Clinical Syndromes	323
	9-1: Introduction	323
	9-2: Preterm Birth	323
	9-3: Hypertension	331
	9-4: Fetal Growth Restriction and Intrauterine Growth Restriction	339
	9-5: Diabetes	347
	9-6: The Stillbirth Placenta	354
	First Trimester Loss (Miscarriage, Spontaneous Abortion)	354
	Genetic Aberrations	354
	Errors of the Intrauterine/Implantation Environment	357
	Infection	359
	Repetitive Loss-Associated	359
	Multiple Gestation-Associated	359
	Second Trimester Loss (Late Miscarriage, Previabile Loss, Preterm Stillbirth)	361
	Infection	361
	Errors of the Intrauterine Environment	362
	Genetic	362
	Multiple Gestation-Associated	362
	Unknown/Other	363
	Repetitive Loss-Associated	363
	Third Trimester Loss (Stillbirth)	363
	Errors of the Intrauterine Environment	363

Repetitive Loss-Associated	365
Infection	365
Congenital Anomaly-Induced	366
Genetic	367
Multiple Gestation-Associated	367
Extrinsic	368
Unknown/Other	368
Additional Considerations of Fetal Death	369
Stillbirth Causes by Timing	369
Placental Changes Following Intrauterine Demise, Including the Interval Between Demise and Delivery	369
Assessment of Interval Between the Onset of Stress and Demise	371
Differential Diagnostic Consideration of Antemortem Versus Post- mortem Placental Pathology	372
Nonpathologic Confounders when Considering Causes of Stillbirth.	373
9-7: Hydrops Placentalis	376
9-8: Hypoxia	381
Acute Hypoxia	381
Chronic Hypoxia	386
9-9: Neonatal Encephalopathy and Hypoxic Ischemic Encephalopathy.	390
9-10: Placenta Accreta Spectrum Disorders	393
10. Pathology Examination of the Twin Placenta	419
Different Types of Twins	419
How to Determine Chorionicity and Placental Sharing	419
Mixed Chorionicity	422
General Problems in Twins	425
Growth Restriction.	425
Preterm Birth and Preterm Prelabor Rupture of Membranes	426
Placental Lesions	427
Molar Pregnancy	427
Umbilical Cord Anomalies.	428
Velamentous Cord Insertion and Vasa Previa	428
Single Umbilical Artery	430
Proximate Cord Insertion	430
Cord Entanglement	430
Specific Monochorionic Pathology	431
Twin-Twin Transfusion Syndrome.	431
Twin Anemia Polycythemia Sequence.	433
Twin Reversed Arterial Perfusion	435
Specific Monoamniotic Pathology.	436

Evaluation After Fetal Demise	437
Evaluation of the Dichorionic Placenta	437
Evaluation of the Monochorionic Placenta	438
Higher Order Multiples	439
11. Sonographic and Doppler Evaluation of the Placenta with Pathologic Correlation.	445
11-1: Sonographic Evaluation of the Placenta	445
Normal Placenta	445
Placental Location (Low Lying or Previa)	446
Placental Accrete Spectrum (Accreta, Increta, Percreta)	448
Chorangioma	449
Abruptio Placenta	450
Placental Sonolucencies, Lakes (Lacunae), and Cysts	451
Placental Thickness	451
Placental Shape	452
Placentation for Twin Gestations	454
Velamentous and Furcate Cord Insertions	454
Umbilical Artery Doppler	454
11-2: The Placenta in Abnormal Doppler	455
Appendices	475
Appendix A: Placental Weight Standards	475
Appendix B: Umbilical Cord Length Standards	482
Appendix C: Umbilical Cord Diameter Standards	484
Appendix D: Umbilical Cord Coiling Index	487
Appendix E: Birth Weight/Placental Weight Ratio Standards	488
Appendix F: Reporting	492
Appendix G: Critical Values	494
Appendix H: Placenta Gross Dictation Templates and Examples	495
Appendix I: Estimating Death to Delivery Intervals Based on Placental Findings	502
Appendix J: Diagnostic Groups	503
Index	505
