

CONTENTS

1.	Pathologic Examination of Ocular Specimens	1
	Globe	1
	Enucleation	1
	Segmental Excision	6
	Biopsy	7
	Eyelids	10
	Full-Thickness Wedge Resection	10
	Partial-Thickness (Lamellar) Wedge Resection	12
	Biopsy	12
	Conjunctiva and Caruncle	12
	Conventional Biopsies	12
	Conjunctival “Map” Biopsies	13
	Exfoliative Cytology	14
	Orbit and Optic Nerve	14
	Exenteration	14
	Orbital Excisional Biopsies	16
	Incisional Orbital Biopsies	16
	Orbital Fine-Needle Aspiration Biopsy	16
	Orbital Touch and Scrape Preparations	17
	Lacrimal Gland and Lacrimal Sac	17
	Excisional Biopsies	17
	Incisional Biopsies	17
	Fine-Needle Aspiration Biopsy	18
	Pretissue Processing Gel Embedding Technique	18
2.	Tumors of the Conjunctiva and Caruncle	21
	Anatomy and Histology	21
	Conjunctiva	21
	Caruncle	22
	Classification	23
	Benign Epithelial Neoplasms and Tumor-Like Lesions	23
	Pinguecula and Pterygium	23
	Hereditary Benign Intraepithelial Dyskeratosis	25
	Papilloma	26
	Amyloidosis	27
	Dysplastic Epithelial Lesions and Malignant Epithelial Neoplasms	30
	Conjunctival Intraepithelial Neoplasia, Carcinoma in Situ, and Squamous Cell Carcinoma	30

Conjunctival Squamous Cell Carcinoma Variants	35
Mucoepidermoid Carcinoma.	35
Spindle Cell Carcinoma.	37
Other Conjunctival Carcinomas	40
Pathologist Report for Epithelial Tumors	40
Benign Melanocytic Tumor-Like Lesions and Neoplasms.	40
Melanocytic Nevi.	40
Non-Nevoid Intraepithelial Melanocytic Proliferations	46
General Features.	46
Clinical Features.	50
Histologic Findings	50
Premalignant and Malignant Melanocytic Lesions.	52
Primary Acquired Melanosis with Atypia (Conjunctival Melanocytic Intraepithelial Neoplasia with Atypia, Intraepithelial Melanocytic Proliferation with Atypia)	52
Melanoma	55
Pathologist Report for Melanocytic Tumors	57
Mesenchymal Neoplasms	58
Vascular and Lymphatic Neoplasms and Tumor-Like Lesions	58
Tumor-Like Congenital Lesions.	58
Tumors of the Caruncle	59
Oncocytoma.	61
Secondary and Metastatic Tumors.	61
3. Tumors of the Eyelids.	67
Anatomy and Histology.	67
Classification	68
Basal Cell Carcinoma	71
Squamous Cell Carcinoma and Its Precursors	75
Sebaceous Lesions	77
Sebaceous Gland Hyperplasia	77
Sebaceous Adenoma and Sebaceous Epithelioma	77
Sebaceous Carcinoma	80
Adnexal Tumors	85
Endocrine Mucin-Producing Sweat Gland Adenocarcinoma	85
Congenital Lesions.	90
Phakomatous Choristoma	90
Secondary and Metastatic Tumors.	91
Lesions Occurring in Eyelid and Skin	92
Benign Epidermal Tumors	92
Epidermal Tumors of Low Malignant Potential	92

	Adnexal Tumors	92
	Vascular Tumors and Tumor-Like Lesions	95
	Merkel Cell Carcinoma	95
	Cutaneous T-Cell Lymphomas	95
	Melanocytic Lesions and Neoplasms.	96
	Premalignant and Malignant Melanocytic Proliferations.	96
	Pathologist Report for Primary Carcinoma of the Eyelid	98
4.	Tumors of the Orbit	105
	Anatomy and Histology.	105
	Classification	105
	Herniated Orbital Fat	106
	Congenital Tumors and Tumor-Like Lesions.	108
	Dermoid Cysts and Variations.	108
	Orbital Teratoma and Other Germline Tumors.	108
	Primary Orbital Melanoma	110
	Metastases to Orbit.	111
	Soft Tissue Tumors	113
	Vascular Tumors and Tumor-Like Lesions	114
	Fibrocytic and Myofibroblastic Tumor-Like Lesions and Neoplasms	115
	Tumors with Muscle Differentiation	116
	Lipomatous Tumors and Tumor-Like Lesions	118
	Peripheral Nerve Sheath Tumors	118
	Tumors and Tumor-Like Lesions of Orbital Bones	119
	Pathologist Report for Orbital Tumors	120
5.	Tumors of the Lacrimal Gland	123
	Anatomy and Histology.	123
	Classification	124
	Chronic Dacryoadenitis.	124
	Idiopathic Chronic Dacryoadenitis.	125
	IgG4-Related Inflammation.	125
	Sarcoidosis Dacryoadenitis	126
	Lacrimal Gland Ductal Cyst (Dacryops)	127
	Benign Epithelial Tumors.	128
	Pleomorphic Adenoma	128
	Malignant Epithelial Tumors.	130
	Adenoid Cystic Carcinoma	130
	Pathologist Report for Lacrimal Gland Tumors.	132
6.	Tumors of the Lacrimal Drainage System	135
	Anatomy and Histology.	135
	Classification	135

Benign Epithelial Tumors.	137
Exophytic Papilloma	137
Inverted Papilloma.	138
Malignant Epithelial Tumors.	141
Squamous Cell Carcinoma	141
Transitional Cell Carcinoma	143
Mucoepidermoid Carcinoma.	145
Melanoma	146
Pathologist Report for Lacrimal Sac Tumors	148
7. Ocular Adnexal Hematolymphoid Neoplasms and Tumor-Like Lesions.	153
Reactive and Atypical Lymphoid Hyperplasia.	153
Primary Ocular Adnexal Lymphoma.	155
Primary Ocular Adnexal Plasmacytoma	155
Xanthogranulomatous Disorders.	155
Rosai-Dorfman Disease	162
Langerhans Cell Histiocytosis	163
Secondary Hematolymphoid Neoplasms	164
8. Tumors of the Uvea	167
Anatomy and Histology.	167
Classification	169
Benign Melanocytic Lesions	170
Uveal Nevi	170
Congenital Melanosis Oculi (Congenital Ocular Melanocytosis).	177
Bilateral Diffuse Uveal Melanocytic Proliferation.	177
Uveal Melanoma	178
Other Uveal Lesions.	186
Metastases to the Uvea.	187
9. Tumors of the Neurosensory Retina and Retinal Pigment Epithelium	191
Anatomy and Histology.	191
Retinoblastoma and Retinocytoma	192
Glial Tumors and Tumor-Like Conditions.	221
Astrocytoma.	221
Retinal Gliosis	222
Vascular Tumors.	222
Hemangioblastoma	222
Retinal Cavernous Hemangioma.	224
Medulloepithelioma.	225
Combined Hamartoma of the Retina and Retinal Pigment Epithelium (Juxtapapillary Hamartoma), Adenoma, and Adenocarcinoma of the Retinal Pigment Epithelium.	227

Combined Hamartoma of the Retina and Retinal Pigment Epithelium	227
Adenoma of the Retinal Pigment Epithelium	228
Adenocarcinoma of the Retinal Pigment Epithelium	228
Secondary and Metastatic Tumors	230
10. Tumors of the Optic Nerve and Optic Nerve Head	233
Anatomy and Histology	233
Optic Nerve Sheath Meningioma	233
Optic Nerve Glioma	236
Pilocytic Astrocytoma	238
Other Gliomas	240
Astrocytic Hamartoma	240
Melanocytoma	240
Primary Melanoma	242
Hemangioma, Hemangiopericytoma/Solitary Fibrous Tumor, Hemangioblastoma . .	242
Secondary and Metastatic Tumors	242
11. Intraocular Hematolymphoid Neoplasms	247
Primary Vitreoretinal Lymphoma	247
Primary Iridal Lymphoma	253
Primary Ciliary Body Lymphoma	254
Primary Choroidal Lymphoma	255
Secondary Intraocular Hematolymphoid Neoplasms	256
Secondary Leukemia	256
Secondary Lymphoma	258
Appendices	261
Index	271
