

## CONTENTS

Introduction: Melanocytes and Their Tumors .....	1
1. Non-Neoplastic Hyperpigmentations.....	5
Ephelides (Freckles).....	5
Simple Ephelis (Freckle).....	5
Actinic (Solar) Lentigo .....	6
Miscellaneous Hyperpigmentations .....	9
Mucosal Melanosis (Genital Lentiginosis) .....	9
Café Au Lait Spot.....	11
Becker Nevus.....	12
Dermal Melanocytoses .....	12
Nevus of Ota.....	12
2. Common Acquired Melanocytic Nevi.....	15
Benign Melanocytic Tumors.....	15
Common Acquired Melanocytic Nevi.....	15
Lentigo Simplex.....	20
Junctional Melanocytic Nevus .....	21
Compound Melanocytic Nevus.....	22
Dermal Melanocytic Nevus .....	29
Variants of Acquired Melanocytic Nevi, Nonsite Dependent .....	40
Halo Nevus .....	40
Deep Penetrating Nevus .....	47
Recurrent Melanocytic Nevus .....	49
Nevi of Special Sites .....	55
Nevus of Genital Skin.....	55
Nevus of the Breast.....	61
Nevus of Acral Skin.....	61
Nevus of Flexural Skin.....	64
Nevus of the Head and Neck.....	74
Nevi in Special Physiologic States .....	75
Nevus in Childhood .....	75
Nevus in Pregnancy.....	75
Nevus in the Elderly .....	77
3. Spindle and Epithelioid Cell Melanocytic Tumors/Nevi.....	83
Spindle and Epithelioid Cell Melanocytic Tumor (Spitz Tumor/Nevus) .....	83
Atypical and Malignant Spitz Tumors.....	100
Pigmented Spindle Cell Nevus of Reed .....	103

4. Blue Nevus and Related Lesions.....	115
Common Blue Nevus.....	115
Plaque Type Blue Nevus.....	121
Neurocristic Hamartoma .....	121
Epithelioid Blue Nevus .....	122
Cellular Blue Nevus .....	124
5. Congenital Melanocytic Nevi.....	135
Small Congenital Nevi.....	135
Intermediate and Giant Congenital Nevi .....	142
Atypical Proliferations in Congenital Nevi .....	146
Cellular and Proliferative Dermal Nodules in Congenital Nevi .....	146
Superficial Atypical Melanocytic Proliferations in Congenital Nevi .....	156
6. Dysplastic Melanocytic Nevi .....	163
Nature and Significance of Dysplastic Nevi .....	163
Clinical Features of Dysplastic Nevi.....	163
Significance of Common and Dysplastic Nevi as Markers of Melanoma Risk .....	166
Clinically Dysplastic Nevi as Melanoma Risk Markers in Familial Melanoma Kindreds.....	166
Clinically Dysplastic Nevi as Melanoma Risk Markers in Random Populations...	166
Histologically Dysplastic Nevi as Melanoma Risk Markers.....	168
Risk-Based Classification of Dysplastic Nevus Cases.....	170
Significance of Dysplastic Nevi as Potential Precursors of Melanoma .....	170
Dysplastic Nevi in a Model of Tumor Progression .....	171
Cell Biology of Dysplastic Nevi .....	171
Cellular and Molecular Markers of Progression in Dysplastic Nevi.....	173
Critiques of the Concept of Melanocytic Dysplasia .....	175
Pathology of Functional and Compound Dysplastic Nevi .....	176
Microscopic Features .....	176
Histologic Criteria for Diagnosis .....	182
Reproducibility and Controversy Regarding the Diagnosis of Histologic Dysplasia.....	186
Grading of Dysplastic Nevi.....	187
Clinicopathologic Correlation of Melanocytic Dysplasia.....	188
Differential Diagnosis .....	190
Role of the Pathologist in Diagnosis of Dysplastic Nevi .....	193
7. Combined Nevi.....	201
Clinical Features .....	201
Microscopic Findings.....	201

8.	Malignant Tumors (Melanomas and Related Lesions) .....	209
	Tumor Progression Phases and Classification .....	209
	Radial and Vertical Growth Phases (Nontumorigenic and Tumorigenic)	
	Melanomas .....	211
	Histogenetic Classification of Melanomas .....	214
	Nontumorigenic Melanoma (Radial Growth Phase).....	219
	Tumorigenic Melanoma (Vertical Growth Phase).....	241
	Management of “Uncertain” Melanocytic Neoplasms: Superficial Atypical Melanocytic Proliferations of Uncertain Significance (SAMPUS) and Melanocytic Tumors of Uncertain Malignant Potential (MELTUMP) .....	264
9.	Histogenetic Variants of Nontumorigenic Melanoma (Radial Growth Phase).....	277
	Superficial Atypical Melanocytic Proliferations of Uncertain Significance (SAMPUS): Uncertainty in the Diagnosis of Nontumorigenic Melanoma.....	277
	Superficial Spreading Melanoma .....	278
	Lentigo Maligna Melanoma .....	296
	Acral-Lentiginous Melanoma .....	311
	Mucosal-Lentiginous Melanoma (Nontumorigenic Compartment) .....	319
10.	Histogenetic Variants of Tumorigenic Melanoma (Vertical Growth Phase) .....	325
	Nodular Melanoma.....	325
	Desmoplastic Melanoma .....	332
	Neurotropic Melanoma and Neurotropism .....	343
	Malignant Melanomas in Congenital Melanocytic Nevi.....	352
	Malignant Blue Nevus .....	356
	Nevoid and Minimal Deviation Melanomas.....	360
	Pigmented Epithelioid Melanocytic Tumors (Pigmented Epithelioid Melanocytoma) ...	371
	True Epithelioid Blue Nevus .....	378
	Pigmented Epithelioid Melanocytoma of Uncertain Malignant Potential.....	378
	Tumoral Melanosis Mimicking Pigmented Epithelioid Melanoma .....	379
	Malignant Melanocytic Schwannoma .....	380
	Clear Cell Sarcoma.....	381
	Dermal Melanocytic Tumors of Uncertain Malignant Potential (MELTUMP) .....	384
11.	Metastatic Malignant Melanoma.....	405
	General Features .....	405
	Epidermotropic Metastatic Melanoma .....	407
	Satellites and In-Transit Metastases.....	408
	Dermal and Subcutaneous Metastases.....	411
	Lymph Node Metastases: Elective and Selective Lymphadenectomy.....	411
	Selective Lymphadenectomy: Sentinel Lymph Node Biopsy.....	416
	Special Studies for Diagnosis of Oligomelanotic or Amelanotic Melanoma .....	418
	Neoplastic Melanin Production .....	418

Special Stains for Melanin Pigment.....	419
Immunopathology .....	420
Electron Microscopy.....	421
Summary.....	422
12. Prognostic Models for Melanoma.....	427
Staging and Microstaging of Malignant Melanoma.....	427
Microstaging Attributes (Pathologic and Clinical).....	428
Phase of Tumor Progression .....	428
Clark Levels of Invasion .....	430
Breslow Tumor Thickness.....	432
Dermal Mitotic Rate .....	433
Tumor-Infiltrating Lymphocytes and Other Immunocompetent Cells in the Vertical Growth Phase.....	434
Tumor-Infiltrating Lymphocytes in the Radial Growth Phase .....	437
Radial Growth Phase Regression .....	437
Ulceration .....	439
Microscopic Satellites .....	439
Vascular Invasion.....	439
Morphometric Attributes .....	440
Age, Sex, and Anatomic Location .....	440
Lymph Node Metastases.....	441
Survival Models for Melanoma Patients.....	442
Prognostic Models for Survival in Patients with Localized Melanoma.....	443
Soong Multivariate Prognostic Model.....	443
Cochran Individualized Prognostic Model .....	443
Clark Progression-Based Survival Model (Model Predicting Survival in Stage I Melanoma Based on Tumor Progression).....	445
TNM Staging System for Melanoma.....	447
Penn Models for Survival Prediction in Thin (AJCC Stage I) Melanoma .....	450
Survival in Patients with Lymph Node Metastatic Melanoma .....	453
Survival in Patients with Distant Metastatic Melanoma.....	453
Surgical Pathology Report for Primary Melanoma.....	453
Index .....	461
