

## CONTENTS

1.	Normal Thyroid Gland.....	1
	Embryology.....	1
	Anatomy .....	3
	Histology.....	4
	The Follicular Cell.....	8
	Thyroid Hormones.....	10
	The C-Cell.....	11
	Calcitonin and Calcitonin Gene-Related Peptide.....	14
	Solid Cell Nests .....	15
2.	Genes Involved in Thyroid Tumorigenesis .....	23
	TSH Receptor/cAMP Pathway.....	25
	MAPK Pathway .....	31
	Tyrosine Kinase Receptors (RET, NTK1, MET).....	31
	RAS.....	36
	BRAF .....	37
	P13K/PTEN/AKT Pathway.....	39
	PPAR $\gamma$ Rearrangement.....	41
	$\beta$ -Catenin/APC/Wnt Signaling .....	42
	TERT.....	43
	Tumor Protein p53.....	45
3.	General Features of Thyroid Tumors.....	57
	Incidence of Thyroid Carcinoma .....	57
	Thyroid Tumors and Iodine Deficiency.....	57
	Thyroid Tumors and Radiation Exposure.....	57
	Thyroid Tumors in Childhood .....	58
4.	Classification of Thyroid Tumors .....	61
	Primary Tumors .....	62
	Secondary Tumors and Tumor-Like Lesions.....	62
5.	Follicular Thyroid Adenoma and Variants.....	65
	Follicular Adenoma.....	65
	Adenoma Variants .....	73
	Adenoma with Bizarre Nuclei .....	73
	Hyalinizing Trabecular Adenoma.....	73
	Adenolipoma and Adenochondroma .....	78
	Atypical Adenoma (Including Spindle Cell Adenoma) .....	78
	Adenoma with Papillary Features .....	79
	“Toxic” Adenoma.....	81

6.	Follicular Thyroid Carcinoma .....	85
	Minimally Invasive (Encapsulated) Type .....	86
	Widely Invasive Type.....	97
7.	Papillary Thyroid Carcinoma and Variants.....	103
	Papillary Carcinoma .....	103
	Papillary Carcinoma Variants .....	127
	Papillary Microcarcinoma .....	127
	Encapsulated Variant.....	130
	Follicular Variant.....	131
	Encapsulated Follicular Variant of PTC and the “Uncertain Malignant Potential (UMP)” Concept.....	135
	Solid/Trabecular Variant.....	139
	Diffuse Sclerosing Variant .....	141
	Oncocytic and Warthin-Like Variants .....	143
	Tall and Columnar Cell Variants.....	146
	Cribriform/Morular Variant .....	149
8.	Poorly Differentiated Thyroid Carcinoma .....	165
	Insular Carcinoma .....	165
	Other Poorly Differentiated Carcinomas.....	172
9.	Undifferentiated (Anaplastic) Thyroid Carcinoma .....	177
10.	Thyroid Tumors with Oncocytic (Hürthle Cell) Features .....	199
	General Considerations .....	199
	Oncocytic Adenoma (Hürthle Cell Adenoma).....	203
	Oncocytic Carcinoma (Hürthle Cell Carcinoma).....	209
	Papillary Oncocytic Neoplasms.....	215
11.	Thyroid Tumors with Clear Cell, Squamous, and Mucinous Features .....	221
	Tumors with Clear Cell Features.....	221
	General Considerations.....	221
	Tumor Types.....	222
	Other Conditions .....	227
	Tumors with Squamous Features.....	228
	Tumors with Mucinous Features .....	233
12.	Medullary Thyroid Carcinoma and C-Cell Hyperplasia .....	241
	Medullary Thyroid Carcinoma.....	241
	Medullary Carcinoma Variants.....	261
	Papillary Variant.....	261
	Follicular (Tubular) Variant .....	261
	Small Cell Variant.....	261
	Giant Cell Variant .....	261

Clear Cell Variant .....	262
Melanotic Variant.....	262
Oncocytic Variant .....	262
Squamous Cell Variant.....	264
Amphicrine Cell Variant .....	264
Paraganglioma-Like Variant .....	264
Angiosarcoma-Like Variant .....	265
Encapsulated Variant.....	265
Medullary Microcarcinoma.....	265
Heritable Forms of Medullary Carcinoma .....	266
Mixed Medullary and Follicular Cell Carcinoma .....	266
C-Cell Hyperplasia.....	272
13. Sarcomas of the Thyroid Gland.....	289
General Considerations .....	289
Angiosarcoma .....	291
14. Malignant Lymphoma of the Thyroid Gland and Related Lesions .....	299
Malignant Lymphoma.....	299
Other Lymphoid Tumors and Tumor-Like Conditions.....	305
Hodgkin Lymphoma .....	305
Plasmacytoma .....	307
Plasma Cell Granuloma and Related Lesions .....	307
15. Miscellaneous Thyroid-Related Tumors .....	311
Parathyroid Tumors .....	311
Paraganglioma .....	311
Teratoma .....	313
Solitary Fibrous Tumor .....	314
Other Benign Soft Tissue-Type Tumors .....	314
Tumors with Thymic or Related Branchial Pouch Differentiation .....	315
Ectopic Cervical Thymoma.....	315
Ectopic Hamartomatous Thymoma.....	316
Spindle Epithelial Tumor with Thymus-Like Differentiation.....	316
Carcinoma Showing Thymus-Like Differentiation.....	319
Salivary Gland-Type Tumors .....	320
16. Secondary Tumors of the Thyroid Gland.....	325
17. Tumor-Like Conditions of the Thyroid Gland.....	331
Nodular Hyperplasia.....	331
Diffuse Hyperplasia.....	335
Dyshormonogenetic Goiter .....	336
Thyroiditis.....	339
Hashimoto Thyroiditis .....	339

Subacute Granulomatous (DeQuervain) Thyroiditis .....	342
Fibrosing (Riedel) Thyroiditis.....	342
Multifocal Fibrosing (Sclerosing) Thyroiditis.....	345
Malakoplakia .....	347
Other Forms of Thyroiditis .....	347
Miscellaneous Lesions.....	347
Langerhans Cell Histiocytosis .....	347
Rosai-Dorfman Disease.....	347
Radiation Changes.....	348
Amyloid Goiter .....	349
18. Benign Thyroid Tissue in Abnormal Locations.....	355
Ectopia .....	355
Mechanical Implantation .....	357
Parasitic Nodule .....	358
Thyroid Inclusions in Lymph Nodes.....	360
Thyroid as a Component of Teratoma (Including Struma Ovarii) .....	361
19. Molecular Genetic Alterations of Specific Thyroid Tumors of Follicular Cells.....	365
Follicular Adenoma and Variants .....	365
Follicular Carcinoma .....	367
Papillary Carcinoma and Variants.....	371
Poorly Differentiated Carcinoma .....	379
Undifferentiated (Anaplastic) Carcinoma .....	380
Other Tumors.....	382
20. Cytopathology of Thyroid Tumors .....	395
The Normal Thyroid Gland.....	397
Cytology of Thyroid Tumors and Tumor-Like Conditions .....	400
Nodular Hyperplasia .....	400
Diffuse Hyperplasia .....	404
Hashimoto Thyroiditis .....	404
Follicular Neoplasms .....	406
Papillary Carcinoma.....	416
Variants of Papillary Thyroid Carcinoma .....	427
Insular Carcinoma.....	431
Undifferentiated (Anaplastic) Carcinoma.....	433
Tumors with Oncocytic Features .....	433
Tumors with Clear Cell Features .....	439
Tumors with Squamous Features .....	440
Medullary Carcinoma .....	441
Malignant Lymphoma .....	445
Secondary/Metastatic Tumors .....	447

Diagnostic Molecular Genetics of FNAB .....	450
Accuracy of Cytology: What Can be Expected.....	452
Pitfalls of Thyroid FNAB .....	455
Histologic Alterations Following FNAB .....	456
Complications of FNAB .....	456
21. Clinical Aspects of Thyroid Tumors .....	465
Clinical and Laboratory Evaluation of Thyroid Nodules .....	465
Demographics .....	465
Family History .....	465
History of Hashimoto Thyroiditis.....	465
Rate of Growth .....	465
Palpation .....	465
Isotopic Imaging Study .....	465
Ultrasonography (Ultrasound).....	466
Computerized Tomography (CT) and Magnetic Resonance Imaging (MRI).....	466
Serum Thyroglobulin Levels .....	466
Serum Calcitonin Levels.....	466
Frozen Section Examination .....	466
Cytologic Evaluation.....	467
Pathologic Evaluation and Reporting.....	467
Handling.....	467
Description .....	467
Sections for Histology .....	467
Example of Gross Description.....	468
Standardized Reporting.....	468
ADASP Recommended Protocol.....	468
CAP Recommended Protocol/Checklist.....	468
Microscopic Grading .....	468
Staging of Thyroid Carcinoma.....	469
Ancillary Testing .....	471
Treatment of Thyroid Tumors .....	472
Prognostic Factors.....	474
22. Immunohistochemical Markers of the Normal and Neoplastic Thyroid Gland .....	481
23. The Normal Parathyroid Gland.....	493
Embryology.....	493
Anatomy .....	494
Gross and Microscopic Findings .....	494
Immunohistochemical Findings.....	499
Ultrastructural Findings .....	501

24.	Physiology and Pathophysiology of Parathyroid Glands .....	505
	Calcium Homeostasis .....	505
	Parathyroid Hormone and Parathyroid Hormone-Related Protein .....	505
	Hypercalcemia .....	506
	Hyperparathyroidism.....	506
	General Considerations.....	506
	Primary Hyperparathyroidism .....	506
	Bone Manifestations.....	507
	Renal and Other Manifestations .....	509
	Hypercalcemia of Malignancy .....	509
25.	Parathyroid Adenoma and Variants .....	513
	Parathyroid Adenoma.....	513
	Adenoma Variants .....	531
	Oncocytic Adenoma.....	531
	Lipoadenoma.....	532
	Water Clear Cell Adenoma.....	532
	Atypical Adenoma .....	532
	Adenoma-Associated Parathyroid Glands.....	537
26.	Parathyroid Carcinoma .....	543
	General Features .....	543
	Clinical Features .....	543
	Gross Findings .....	544
	Microscopic Findings.....	544
	Cytologic Findings.....	552
	Immunohistochemical Findings .....	552
	Ultrastructural Findings.....	553
	Molecular Genetic Findings.....	553
	Differential Diagnosis .....	554
	Treatment and Prognosis .....	554
	Staging of Parathyroid Carcinoma .....	556
27.	Primary Chief Cell Hyperplasia, Clear Cell Hyperplasia, and Heritable	
	Hyperparathyroidism Syndromes.....	561
	Primary Chief Cell Hyperplasia .....	561
	Clear Cell Hyperplasia .....	566
	Heritable Hyperparathyroidism Syndromes.....	568
	Multiple Endocrine Neoplasia Type 1 .....	568
	Multiple Endocrine Neoplasia Type 2.....	570
	Multiple Endocrine Neoplasia Type 4.....	571
	Hyperparathyroidism-Jaw Tumor Syndrome.....	571

Familial Hypocalciuric Hypercalcemia and Neonatal Severe Primary Hyperparathyroidism.....	571
Familial Isolated Hyperparathyroidism .....	572
28. Secondary and Tertiary Hyperparathyroidism, and Parathyroid Grafts .....	575
Secondary Hyperparathyroidism.....	575
Tertiary Hyperparathyroidism .....	579
Parathyroid Grafts.....	580
29. Miscellaneous Parathyroid Lesions .....	583
Parathyroid Cysts.....	583
Parathyromatosis .....	583
Secondary Tumors .....	585
30. Diagnostic Approaches to Parathyroid Lesions.....	589
Intraoperative Diagnosis.....	589
Fat Stains .....	590
Density Gradients .....	591
DNA Cytometry .....	591
Preoperative Localization and Intraoperative Parathyroid Hormone Assays .....	591
Index .....	597
