

## CONTENTS

1.	Normal Anatomy and Embryology .....	1
	Normal Anatomy .....	1
	Gallbladder.....	1
	Extrahepatic Bile Ducts .....	11
	Vaterian System .....	12
	Blood Supply .....	15
	Gallbladder.....	15
	Extrahepatic Bile Ducts .....	16
	The Vaterian System.....	16
	Lymphatic Drainage.....	16
	Embryologic Development .....	17
	Congenital Anomalies .....	17
	Anatomic Variations.....	19
2.	Histologic Classification.....	25
3.	Benign Epithelial Tumors of the Gallbladder.....	31
	Adenoma .....	31
	Adenoma Variants .....	34
	The Adenoma-Carcinoma Sequence .....	50
	Combined or Mixed Tubular Adenoma, Pyloric Type, and Carcinoid Tumor .....	53
	Cystadenoma .....	53
	Cystadenocarcinoma .....	56
4.	Dysplasia/Carcinoma in Situ (Biliary Intraepithelial Neoplasia) of the Gallbladder.....	59
	General Features.....	59
	Phenotypes.....	60
	High-Grade Dysplasia/Carcinoma in Situ Extending into or Arising from Rokitansky-Aschoff Sinuses .....	67
	Immunohistochemistry and Molecular Pathology .....	69
	Cytologic Discord Between High-Grade Dysplasia/Carcinoma in Situ and Adjacent Invasive Carcinoma .....	70
	Progression to Carcinoma .....	71
	Prognosis .....	72
5.	Carcinoma of the Gallbladder .....	77
	Epidemiology .....	77
	Racial/Ethnic Variations.....	78
	Decline of Gallbladder Cancer.....	78
	Age Distribution.....	78

Risk Factors . . . . .	78
Genetic Background . . . . .	78
Gallstones . . . . .	78
Abnormal Choledochopancreatic Junction . . . . .	80
Bile Acids . . . . .	81
Porcelain Gallbladder . . . . .	81
Biliary Papillomatosis . . . . .	82
Inflammatory Bowel Disease . . . . .	82
Familial Adenomatous Polyposis . . . . .	83
Infections . . . . .	84
Occupation . . . . .	86
Other Risk Factors . . . . .	86
Carcinogenic Field . . . . .	86
Clinical Features . . . . .	87
Systemic Manifestations . . . . .	87
Laboratory Observations . . . . .	88
Lymph Node Involvement . . . . .	88
Detection . . . . .	89
Bile Cytology . . . . .	90
Dysplasia . . . . .	90
Carcinoma in Situ . . . . .	90
Invasive Carcinoma . . . . .	91
Gross Findings . . . . .	93
Histologic Carcinoma Types . . . . .	97
Adenocarcinoma . . . . .	97
Adenocarcinoma with Pseudoangiosarcomatous Features . . . . .	108
Adenocarcinoma with Choriocarcinoma-Like Areas . . . . .	109
Intestinal-Type Adenocarcinomas . . . . .	111
Pyloric-Type Adenocarcinoma . . . . .	111
Papillary Carcinoma . . . . .	112
Adenosquamous Carcinoma . . . . .	120
Cribriform Carcinoma . . . . .	122
Clear Cell Adenocarcinoma . . . . .	123
Oncocytic Adenocarcinoma . . . . .	128
Mucinous Carcinoma . . . . .	128
Signet Ring Cell Carcinoma . . . . .	131
Squamous Cell Carcinoma . . . . .	132
Small Cell Carcinoma . . . . .	135
Large Cell Neuroendocrine Carcinoma . . . . .	140

Undifferentiated Carcinoma . . . . .	142
Hepatoid Adenocarcinoma . . . . .	150
Molecular Pathology . . . . .	150
Spread . . . . .	150
Prognostic Factors . . . . .	153
The Surgical Pathology Report . . . . .	157
TNM Classification of Carcinoma of the Gallbladder . . . . .	158
6. Endocrine Tumors and Tumors of Paraganglia . . . . .	171
Carcinoid Tumors . . . . .	171
Atypical Carcinoid Tumor . . . . .	174
Clear Cell Carcinoid Tumor Associated with von Hippel-Lindau Disease . . . . .	178
Tumors of Paraganglia . . . . .	179
Paraganglioma . . . . .	179
7. Benign and Malignant Mesenchymal, Nonepithelial, and Neurogenic Tumors . . . . .	185
Benign Mesenchymal Tumors . . . . .	185
Lipoma . . . . .	185
Hemangioma . . . . .	185
Lymphangioma . . . . .	185
Leiomyoma . . . . .	185
Benign Gastrointestinal Stromal Tumor . . . . .	187
Inflammatory Fibroid Polyp . . . . .	188
Osteoma . . . . .	188
Benign Nonepithelial Tumors . . . . .	191
Granular Cell Tumor . . . . .	191
Benign Neurogenic Tumors . . . . .	192
Neurofibroma and Schwannoma . . . . .	192
Neurofibromatosis . . . . .	192
Ganglioneuromatosis . . . . .	193
Giant Cell Tumor . . . . .	193
Malignant Mesenchymal Tumors . . . . .	193
Malignant Fibrous Histiocytoma . . . . .	196
Kaposi Sarcoma . . . . .	196
Leiomyosarcoma . . . . .	198
Angiosarcoma . . . . .	198
Embryonal Rhabdomyosarcoma . . . . .	199
Malignant Gastrointestinal Stromal Tumor . . . . .	199
Miscellaneous Malignant Tumors . . . . .	202
Carcinosarcoma . . . . .	202
Melanoma . . . . .	205
Lymphoma and Leukemia . . . . .	206

Yolk Sac Tumor.....	210
Teratoma.....	210
8. Secondary Tumors of the Gallbladder .....	221
The Solitary Metastasis.....	221
Direct Extension from Adjacent Organs .....	226
Malignant Lymphoma and Leukemia .....	226
9. Hyperplastic, Metaplastic, and Tumor-Like Lesions of the Gallbladder .....	233
Changes in Cholecystitis .....	233
Hyperplastic Epithelial Changes, Reactive Atypia, and Florid Myofibroblastic Proliferation in Acute or Chronic Cholecystitis .....	233
IgG4-Related Chronic Sclerosing Cholecystitis (Cholecystitis Associated with Autoimmune Pancreatitis).....	237
Eosinophilic Cholecystitis .....	239
Cytomegalovirus and <i>Cryptosporidium</i> Cholecystitis.....	240
Pyloric Gland Metaplasia .....	241
Intestinal Metaplasia .....	246
Squamous Metaplasia.....	248
Papillary Hyperplasia .....	248
Papillary Hyperplasia Secondary to Metachromatic Leukodystrophy .....	249
Rokitansky-Aschoff Sinuses .....	253
Adenomyomatous Hyperplasia .....	255
Luschka Ducts.....	260
Mucocele.....	262
Heterotopia.....	266
Gastric Heterotopia .....	266
Pancreatic Heterotopia.....	267
Hepatic Heterotopia.....	268
Thyroid Heterotopia.....	270
Adrenal Cortical Heterotopia.....	270
Polyps .....	270
Cholesterol Polyp.....	270
Inflammatory Polyp.....	270
Fibrous Polyp .....	270
Xanthogranulomatous Cholecystitis.....	270
Malakoplakia .....	273
Chronic Cholecystitis with Lymphoid Hyperplasia (Follicular Cholecystitis) .....	274
Inflammatory Myofibroblastic Tumor .....	275
10. Benign Epithelial Tumors and Biliary Papillomatosis of the Extrahepatic Bile Ducts..	281
Benign Epithelial Tumors.....	281
Adenoma .....	281

Cystadenoma . . . . .	285
Biliary Papillomatosis . . . . .	293
11. Carcinoma of the Extrahepatic Bile Ducts: Epidemiology, Risk Factors, Clinical Manifestations, Laboratory Observations, and Diagnosis . . . . .	303
Epidemiology . . . . .	303
Risk Factors . . . . .	304
Sclerosing Cholangitis and Ulcerative Colitis . . . . .	304
Abnormal Choledochopancreatic Junction . . . . .	305
Crohn Disease . . . . .	306
Familial Adenomatous Polyposis Coli . . . . .	306
Infections . . . . .	306
Cholelithiasis . . . . .	306
Enterobiliary Anastomosis . . . . .	306
von Recklinghausen Disease . . . . .	307
Clinical Manifestations . . . . .	307
Laboratory Observations . . . . .	307
Circulating Tumor Markers . . . . .	307
Tissue Markers . . . . .	307
Systemic Manifestations . . . . .	307
Diagnosis . . . . .	307
Imaging . . . . .	307
Brush Cytology and Biopsy . . . . .	308
Biopsy Techniques . . . . .	318
Delay in Diagnosis . . . . .	319
12. Dysplasia, Carcinoma in Situ, and Invasive Carcinoma of the Extrahepatic Bile Ducts . . . . .	323
High-Grade Dysplasia/Carcinoma in Situ . . . . .	323
Invasive Carcinomas . . . . .	329
Well- to Moderately Differentiated Adenocarcinoma . . . . .	336
Noninvasive and Invasive Intraductal Papillary Carcinomas . . . . .	342
Intraductal Tubular Carcinomas . . . . .	350
Intestinal-Type Adenocarcinoma . . . . .	351
Foveolar Adenocarcinoma . . . . .	353
Adenocarcinoma with Predominant Pyloric Phenotype . . . . .	356
Clear Cell Adenocarcinoma . . . . .	357
Small and Large Cell Neuroendocrine Carcinomas . . . . .	358
Mucinous Carcinoma . . . . .	360
Signet Ring Cell Carcinoma . . . . .	360
Adenosquamous and Squamous Cell Carcinomas . . . . .	360
Undifferentiated Nonendocrine Small Cell Carcinoma . . . . .	360
Undifferentiated (Anaplastic) Spindle and Giant Cell Carcinoma . . . . .	362

Molecular Pathology .....	362
Differential Diagnosis.....	363
Spread .....	365
Treatment and Prognosis .....	366
Prognostic Factors .....	366
Staging .....	367
The Surgical Pathology Report.....	368
13. Endocrine and Benign Mesenchymal Tumors of the Extrahepatic Bile Ducts .....	375
Carcinoid Tumor (Well-Differentiated Endocrine Tumor) .....	375
Tumors of Paraganglia .....	382
Paraganglioma .....	382
Benign Mesenchymal Tumors .....	383
Benign Nonepithelial Tumors .....	383
Granular Cell Tumor .....	384
Giant Cell Tumor .....	387
14. Malignant Mesenchymal and Miscellaneous Tumors of the Extrahepatic Bile Ducts...	393
Malignant Mesenchymal Tumors .....	393
Embryonal Rhabdomyosarcoma .....	393
Malignant Fibrous Histiocytoma .....	396
Leiomyosarcoma .....	396
Kaposi Sarcoma .....	396
Miscellaneous Tumors .....	398
Inflammatory Myofibroblastic Tumor .....	398
Carcinosarcoma .....	399
Malignant Lymphoma .....	399
Solitary Plasmacytoma .....	400
Granulocytic Sarcoma .....	400
Choledochal Cyst.....	400
Carcinoma and Sarcoma Arising in Choledochal Cyst .....	404
15. Secondary Tumors of the Extrahepatic Bile Ducts.....	411
Metastasis Versus Multicentricity.....	412
Langerhans Cell Histiocytosis .....	413
Granulocytic (Myeloid) Sarcoma .....	414
16. Metaplastic and Tumor-Like Lesions of Extrahepatic Bile Ducts.....	419
Pyloric, Intestinal, Foveolar, and Squamous Metaplasia .....	419
Tumor-Like Lesions .....	421
Pancreatic Heterotopia .....	421
Heterotopic Gastric Mucosa .....	422
Amputation Neuroma .....	423

IgG4-Related Lymphoplasmacytic Sclerosing Cholangitis . . . . .	423
Eosinophilic Cholangitis . . . . .	424
17. Primary Sclerosing Cholangitis . . . . .	429
Definition and General Features . . . . .	429
Clinical Features . . . . .	430
Microscopic Findings . . . . .	430
Differential Diagnosis . . . . .	431
High-Grade Dysplasia and Carcinoma in Primary Sclerosing Cholangitis . . . . .	434
Association with Inflammatory Bowel Diseases . . . . .	435
Association with Uncommon Disorders . . . . .	435
Pathogenesis . . . . .	436
18. Preinvasive Neoplastic Lesions of the Vaterian System . . . . .	441
Intestinal-Type Adenomas . . . . .	441
Pancreatobiliary-Type Papillary Neoplasms . . . . .	458
Flat Dysplasia (Carcinoma in Situ) . . . . .	461
19. Malignant Epithelial Tumors of the Vaterian System . . . . .	467
Epidemiology . . . . .	467
Associated Conditions . . . . .	468
Adenoma . . . . .	468
Familial Adenomatous Polyposis . . . . .	469
Hereditary Nonpolyposis Colorectal Carcinoma . . . . .	469
Neurofibromatosis . . . . .	470
Other Neoplasms . . . . .	470
Miscellaneous Associations . . . . .	470
Clinical Features . . . . .	470
Diagnosis . . . . .	470
Laboratory Findings . . . . .	470
Radiographic and Endoscopic Findings . . . . .	471
Cytology . . . . .	472
Biopsy . . . . .	472
Gross Findings . . . . .	472
Microscopic Findings by Histologic Type . . . . .	473
Adenocarcinoma . . . . .	473
Intestinal-Type Adenocarcinoma . . . . .	474
Pancreatobiliary-Type Adenocarcinoma . . . . .	483
Poorly Differentiated Adenocarcinoma . . . . .	483
Unusual Histologic Types of Ampullary Carcinoma . . . . .	488
Invasive Papillary Carcinoma . . . . .	488
Mucinous (Colloid) Carcinoma . . . . .	488
Micropapillary Carcinoma . . . . .	492

Diffuse (Signet Ring Cell) Carcinoma .....	492
Clear Cell Carcinoma .....	494
Hepatoid Carcinoma .....	495
Medullary and Lymphoepithelioma-Like Carcinomas .....	495
Adenosquamous Carcinoma and Squamous Cell Carcinoma .....	497
Poorly Differentiated (High-Grade) Neuroendocrine Carcinoma .....	498
Undifferentiated Carcinoma .....	502
Other Uncommon Carcinomas .....	506
Immunohistochemical Findings .....	506
Ultrastructural Findings .....	510
Histologic Grading .....	510
Molecular Pathology .....	510
<i>APC</i> .....	510
<i>K-RAS</i> .....	510
<i>TP53</i> .....	512
Microsatellite Instability and Mismatch Repair Genes .....	512
Growth Factors .....	513
Gene Expression Studies .....	513
Other Molecular Abnormalities .....	513
Tumor Behavior .....	513
Spread .....	513
Staging .....	514
Prognostic Factors .....	515
Outcome .....	520
20. Neuroendocrine Tumors and Related Neoplasms of the Vaterian System .....	531
Well-Differentiated Neuroendocrine Tumors (Carcinoid Tumors) .....	531
Glandular Carcinoid (Neuroendocrine) Tumor (Somatostain Cell Neuroendocrine Tumor) .....	537
Gastrin-Producing Neuroendocrine Tumor (Gastrinoma) .....	542
Goblet Cell Carcinoid Tumor .....	544
Gangliocytic Paraganglioma .....	547
Paraganglioma .....	556
21. Tumor and Tumor-Like Lesions of the Minor Papilla .....	565
Preinvasive Neoplasia and Invasive Carcinoma .....	565
Preinvasive Neoplasms .....	566
Invasive Carcinomas .....	567
Neuroendocrine Neoplasms .....	570
Mesenchymal Neoplasms .....	571
Tumor-Like Lesions .....	572

22. Benign and Malignant Mesenchymal Tumors and Other Malignant Tumors of the Vaterian System . . . . .	577
Benign Mesenchymal Tumors . . . . .	577
Leiomyoma . . . . .	577
Lipoma . . . . .	578
Hemangioma and Lymphangioma . . . . .	578
Neurogenic Tumors . . . . .	578
Malignant Mesenchymal Tumors . . . . .	578
Leiomyosarcoma . . . . .	578
Gastrointestinal Stromal Tumors . . . . .	578
Rhabdomyosarcoma . . . . .	582
Kaposi Sarcoma . . . . .	584
Other Malignant Tumors . . . . .	584
Lymphoma . . . . .	584
23. Tumor-Like Lesions of the Vaterian System . . . . .	587
Papillary Hyperplasia . . . . .	587
Heterotopic Tissues . . . . .	588
Pancreatic Heterotopia . . . . .	588
Gastric Heterotopia . . . . .	588
Adenomyomatous Hyperplasia and Adenomyoma . . . . .	589
Brunner Gland Hyperplasia . . . . .	589
Hamartomatous Polyps . . . . .	591
Fibroinflammatory Lesions . . . . .	591
“Pseudotumor” . . . . .	591
Myofibroblastic Proliferation . . . . .	592
Sclerosing Lymphoplasmacytic Lesions Related to IgG4 . . . . .	592
Sclerosing Cholangitis . . . . .	594
Lithiasis . . . . .	594
24. Secondary Tumors of the Vaterian System . . . . .	597
Direct Extension from Adjacent Tumors . . . . .	597
Metastases . . . . .	598
Metastatic Melanoma . . . . .	599
25. Prosection of the Pancreatoduodenectomy Specimen . . . . .	603
Surgical Resection . . . . .	603
The Procedure . . . . .	603
The Surgical Pathology Report . . . . .	604
Index . . . . .	605
