

CONTENTS

1.	Embryology, Histology, and Anatomy	1
	Embryology	1
	Gross Anatomy	1
	Histologic Organization	3
	Histology	4
	Cells of the Liver	4
2.	Benign Hepatocellular Tumors and Tumor-Like Lesions	13
	Nodular Regenerative Hyperplasia	13
	Focal Nodular Hyperplasia	17
	Hepatocellular Adenoma	22
3.	Hepatocellular Carcinoma	39
	Precursor Hepatocellular Carcinoma Lesions	39
	Small Cell Change	39
	Large Cell Change	39
	Glycogen Storing Foci	39
	Macroregenerative Nodule	40
	Focal Nodular Hyperplasia-Like Lesions	40
	Dysplastic Nodules	40
	Definition of Hepatocellular Carcinoma	43
	Clinical Features	44
	Demographics	44
	Serum Findings	44
	Etiology	44
	Gross Findings	45
	Microscopic Findings	46
	Diagnosis	46
	Growth Patterns	48
	Changes after Chemoembolization Therapy	51
	Evaluating the Background Liver	53
	Histologic Grading	53
	Immunohistochemical Findings	55
	Laws of Immunohistochemistry	56
	Cytokeratin and Other Stains	57
	Stains to Identify Hepatocytic Differentiation	58
	Stains to Separate Benign from Malignant Hepatocytes	63
	Histologic Subtypes	67
	Carcinosarcoma	67

Cirrhodomimetic Hepatocellular Carcinoma	68
Clear Cell Hepatocellular Carcinoma	70
Double Primary Carcinomas	72
Combined Hepatocellular and Neuroendocrine Carcinoma	72
Granulocyte Colony-Stimulating Factor–Producing Hepatocellular Carcinoma	73
Lymphocyte-Rich Hepatocellular Carcinoma and Lymphoepithelioma- Like Hepatocellular Carcinoma	74
Sarcomatoid Hepatocellular Carcinomas	75
Scirrhous Hepatocellular Carcinoma	76
Steatohepatic Hepatocellular Carcinoma	77
Provisional Subtypes of Hepatocellular Carcinoma	79
Chromophobe Hepatocellular Carcinoma	79
Lipid-Rich Hepatocellular Carcinoma	79
Myxoid Hepatocellular Carcinoma	80
Hepatocellular Carcinoma with Syncytial Giant Cells	81
Transitional Liver Cell Tumor	81
Ultrastructural Findings	82
Cytologic Findings	82
Molecular Genetic Findings	82
Differential Diagnosis	83
Spread and Metastases	84
Staging and Treatment	85
Prognosis	86
4. Fibrolamellar Carcinoma	97
Clinical Features	97
Laboratory Findings	98
Etiology	98
Gross Findings	98
Microscopic Findings	98
Association with Other Tumors	103
Histologic Grading	105
Immunohistochemical Findings	105
Histologic Types	107
Ultrastructural Findings	108
Cytologic Findings	108
Molecular Genetic Findings	109
Differential Diagnosis	110
Spread and Metastases	111
Staging	111

	Treatment	111
	Prognosis	112
5.	Pediatric Liver Tumors	117
	Hepatoblastoma	117
	Clinical Features	117
	Etiology	117
	Gross Findings	118
	Microscopic Findings	118
	Histologic Hepatoblastoma Patterns	120
	Histologic Grading	126
	Immunohistochemical Findings	126
	Ultrastructural Findings	128
	Cytologic Findings	128
	Molecular Genetic Findings	128
	Differential Diagnosis	129
	Spread and Metastases	129
	Staging	129
	Treatment	130
	Prognosis	131
	Malignant Rhabdoid Tumor	132
	Clinical Features	132
	Gross and Microscopic Findings	132
	Immunohistochemical Findings	132
	Ultrastructural Findings	133
	Cytologic Findings	133
	Molecular Genetic Findings	133
	Differential Diagnosis	133
	Spread and Metastases	134
	Treatment and Prognosis	134
	Calcified Nested Stromal-Epithelial Tumor	134
	General Features	134
	Gross and Microscopic Findings	134
	Immunohistochemical Findings	137
	Ultrastructural and Cytologic Findings	137
	Molecular Genetic Findings	137
	Differential Diagnosis	138
	Spread and Metastases	138
	Treatment and Prognosis	138
	Transitional Cell Tumors	138
	Pediatric Focal Nodular Hyperplasia	139

	Clinical Features	139
	Microscopic Findings	139
	Differential Diagnosis	140
	Pediatric Hepatocellular Adenomas	140
	Pediatric Hepatocellular Carcinoma	141
	Pediatric Cholangiocarcinoma	144
	Pediatric Hepatic Germ Cell Tumors.	144
6.	Benign and Borderline Biliary Neoplasms and Tumor-Like Lesions.	153
	Intraductal Papillary Neoplasm.	153
	Intraductal Tubulopapillary Neoplasm	171
	Mucinous Cystic Neoplasm.	176
	Bile Duct Adenoma/Peribiliary Gland Hamartoma	185
	Von Meyenburg Complex.	189
	Other Benign Biliary Lesions.	192
7.	Intrahepatic Cholangiocarcinoma and Precursor Lesions	201
	Intrahepatic Cholangiocarcinoma	201
	General Features	201
	Clinical Features	203
	Gross Findings.	203
	Microscopic Findings	208
	Histologic Types	217
	Frozen Sections	227
	Immunohistochemical Findings.	228
	Ultrastructural Findings	233
	Cytologic Findings	233
	Molecular Genetic Findings	238
	Differential Diagnosis	240
	Spread and Metastases.	245
	Staging.	245
	Treatment	246
	Prognosis	246
	Precursor Lesions.	247
	Biliary Intraepithelial Neoplasia	247
	Other Precursor Lesions	253
8.	Combined Hepatocellular-Cholangiocarcinoma	265
	General and Clinical Features	266
	Laboratory Findings	267
	Etiology	267
	Gross Findings	267
	Microscopic Findings	268

	Cytologic Findings	273
	Immunohistochemical Findings	273
	Ultrastructural Findings	274
	Molecular Genetic Findings	274
	Differential Diagnosis	274
	Spread and Metastases	275
	Staging and Treatment	275
	Prognosis	275
9.	Mesenchymal Tumors and Tumor-Like Lesions	279
	Vascular and Perivascular Neoplasms	279
	Cavernous Hemangioma	279
	Infantile Hemangioma	284
	Epithelioid Hemangioendothelioma	290
	Angiosarcoma	296
	Angiomyolipoma	299
	Kaposi Sarcoma	309
	Lymphangioma	310
	Pediatric Mesenchymal Tumors	313
	Mesenchymal Hamartoma	313
	Embryonal Sarcoma	317
	Rhabdomyosarcoma	322
	Malignant Rhabdoid Tumor	324
	Mesenchymal Tumors	328
	Leiomyosarcoma	328
	Solitary Fibrous Tumor	329
	Mesothelioma	329
	Inflammatory Myofibroblastic Tumor	332
	Inflammatory Pseudotumor-Like Follicular Dendritic Cell Tumor	335
	Inflammatory Pseudotumor	336
10.	Metastatic Disease	351
	Demographics	351
	Types of Neoplasms that Metastasize to the Liver	351
	Metastases to Cirrhotic Livers	351
	Cancer of Unknown Primary	351
	Serum Findings	352
	Gross Findings	352
	Microscopic Findings Including Immunohistochemistry	353
	Morphological Clues	353
	General Approach	358
	Broad Lineage Markers	359

Carcinoma	364
Distinguishing Primary Liver Carcinoma from Metastatic Carcinoma	364
Hepatocellular Carcinoma versus Metastatic Disease.	364
Cholangiocarcinoma versus Metastatic Disease.	366
Metastatic Hepatoid Carcinomas	368
General Approach to Carcinomas.	369
Histologic Grading	369
Sites of Origin for Metastatic Disease	369
Adrenal Tumors.	369
Breast Adenocarcinoma	370
Colorectal Adenocarcinoma	371
Germ Cell Tumors.	373
Lung Adenocarcinoma	375
Neuroendocrine Tumors/Carcinomas.	375
Small Cell Carcinoma	378
Paraganglioma.	379
Pancreatic Carcinoma	380
Prostate Adenocarcinoma	384
Renal Carcinoma.	384
Transitional Cell Carcinoma and Squamous Cell Carcinoma	385
Metastatic Sarcomas	386
Gastrointestinal Stromal Tumors and Leiomyosarcomas.	386
Desmoplastic Small Round Cell Tumor	386
Melanoma	388
Ultrastructural Findings	390
Cytologic Findings	390
Molecular Genetic Findings	390
Prognosis and Treatment.	391
11. Lymphoid-Hematopoietic Tumors and Tumor-Like Lesions	399
Primary Hepatic Lymphoma.	399
Diffuse Large B-Cell Lymphoma.	399
Extranodal Marginal Zone Lymphoma.	401
Hepatosplenic T-Cell Lymphoma	407
Secondary Hepatic Involvement in Malignant Lymphoma.	407
B-Cell Lymphomas	409
T-Cell or NK-Cell Lymphomas	411
Hodgkin Lymphoma.	414
Post-Transplant Lymphoproliferative Disorder.	416
Histologic Types	417
Leukemic Infiltration and Myeloid Sarcoma	419

	Plasma Cell Neoplasms	420
	Langerhans Cell Histiocytosis	421
	Tumor-Like Lesions	426
	Hepatic Pseudolymphoma	426
	Follicular Cholangitis	430
	Extramedullary Hematopoiesis	433
12.	Pathologic Staging of Primary Malignant Neoplasms in Liver	439
	Cancers Arising from Hepatocytes	439
	Cancers Arising from Intrahepatic Bile Ducts.	440
	Index	443
