

CONTENTS

1. The Normal Pancreas	1
Embryology	1
Gross Anatomy	3
Anatomic Relationships	4
The Vascular Supply	5
The Lymphatic System	7
Innervation of the Pancreas	9
Histology, Cytology, and Function	9
The Exocrine Pancreas	10
The Endocrine Pancreas	13
Minor Architectural Variations	16
Acinar Cell Nodule	16
Acinar Ectasia	17
Metaplasia of Ductal Epithelium	17
Congenital and Developmental Anomalies	18
Agenesis and Hypoplasia	18
Pancreas Divisum	19
Annular Pancreas	20
Congenital Lipomatosis	20
2. Classification of Pancreatic Tumors	23
3. Staging	27
Anatomic Subsites	27
T Classification	28
N Classification	29
M Classification	29
Extent of Resection	29
Prefixes Applied to the TNM Classification	29
Staging	30
Histopathologic Grading	30
Comparison to the Japanese Staging System	30
4. Serous Cystic Neoplasms	33
Microcystic Serous Cystadenoma	33
Serous Cystadenocarcinoma	45
5. Mucinous Cystic Neoplasms	51
Definition	51
General Features	51

Clinical Features	51
Pathologic Features.	52
Gross Findings	52
Microscopic Findings	54
Histologic Types of Invasive Carcinoma	59
Frozen Section	60
Immunohistochemical Findings	60
Ultrastructural Findings	61
Cytologic Findings	61
Molecular and Other Special Techniques	64
Differential Diagnosis.	65
Pathogenesis	68
Spread and Metastases	68
Staging	69
Treatment	69
Prognosis	69
6. Intraductal Neoplasms	75
Intraductal Papillary Mucinous Neoplasm	75
Intraductal Oncocytic Papillary Neoplasm	100
Intraductal Tubular Neoplasm	103
7. Ductal Adenocarcinoma	111
Definition	111
General Features	111
Familial Pancreatic Cancer	114
Clinical Features	115
Pathologic Features.	118
Gross Findings	118
Microscopic Findings	120
Histologic Types	127
Frozen Section	128
Immunohistochemical Findings	129
Ultrastructural Findings	132
Cytologic Findings	132
Molecular and Other Special Techniques	137
Differential Diagnosis.	141
Spread and Metastases	143
Staging, Treatment, and Prognosis.	146
Staging	146

	Treatment	146
	Prognosis	146
	Pancreatic Intraepithelial Neoplasia	148
8.	Adenocarcinoma Variants	165
	Adenosquamous Carcinoma	165
	Colloid Carcinoma (Mucinous Noncystic Carcinoma)	168
	Hepatoid Carcinoma	172
	Medullary Carcinoma.	174
	Signet Ring Cell Carcinoma	176
	Undifferentiated Carcinoma	177
	Undifferentiated Carcinoma with Osteoclast-Like Giant Cells	181
9.	Acinar Neoplasms.	191
	Acinar Cell Cystadenoma.	191
	Acinar Cell Carcinoma	194
	Acinar Cell Cystadenocarcinoma.	209
	Mixed Acinar Carcinomas	211
	Mixed Acinar-Endocrine Carcinoma	211
	Mixed Acinar-Ductal Carcinoma	212
	Mixed Acinar-Endocrine-Ductal Carcinoma	214
10.	Pancreatoblastoma	219
	Definition	219
	General Features	219
	Clinical Features	220
	Pathologic Features.	220
	Gross Findings	220
	Microscopic Findings	220
	Frozen Section	224
	Immunohistochemical Findings	224
	Ultrastructural Findings	225
	Cytologic Findings	225
	Molecular and Other Special Techniques	225
	Differential Diagnosis.	226
	Spread and Metastases	227
	Staging, Treatment, and Prognosis.	227
11.	Solid-Pseudopapillary Neoplasms	231
	Definition	231
	General Features	231
	Clinical Features	231

Pathologic Features	232
Gross Findings	232
Microscopic Findings	233
Histologic Types	240
Frozen Section	240
Immunohistochemical Findings	241
Ultrastructural Findings	241
Cytologic Findings	242
Molecular and Other Special Techniques	244
Differential Diagnosis	245
Spread and Metastases	246
Staging, Treatment, and Prognosis	247
12. Endocrine Neoplasms	251
Endocrine Microadenomas	252
Well-Differentiated Pancreatic Endocrine Neoplasms	254
General Features and Nonfunctional Pancreatic Endocrine Neoplasms	254
Clinicopathic Features of Functional Pancreatic Endocrine Neoplasms	276
Insulinoma	276
Glucagonoma	280
Somatostatinoma	281
Gastrinoma	282
VIPoma	284
Pancreatic Polypeptide-Cell Pancreatic Endocrine Neoplasm	286
Serotonin-Secreting Pancreatic Endocrine Neoplasm	287
Pancreatic Endocrine Neoplasm Producing Other Ectopic Syndromes	288
Pancreatic Endocrine Neoplasms Producing Mixed Syndromes	288
Poorly Differentiated Endocrine Carcinoma	289
Mixed Ductal-Endocrine Carcinoma	291
13. Nonepithelial and Miscellaneous Neoplasms	305
Primary Nonepithelial Neoplasms	305
Benign Nonepithelial Neoplasms	305
Lymphangioma	305
Hemangioma	306
Kaposiform Hemangioendothelioma	307
Schwannoma	307
Neurofibroma	307
Granular Cell Tumors	307
Leiomyoma	308

Lipoma	308
Perivascular Epithelioid Cell Neoplasm (PEComa)	309
Nonepithelial Neoplasms of Uncertain Malignant Potential	309
Inflammatory Myofibroblastic Tumor	309
Solitary Fibrous Tumor	311
Extragastrointestinal Stromal Tumor	312
Malignant Nonepithelial Neoplasms	313
Leiomyosarcoma and Other Sarcomas	313
Primitive Neuroectodermal Tumor	314
Desmoplastic Small Round Cell Tumor	316
Non-Hodgkin’s Lymphoma	317
Miscellaneous Neoplasms	319
Mature Cystic Teratoma	319
Adenomatoid Tumor	320
Extraadrenal Paraganglioma	320
14. Secondary Neoplasms	325
Metastatic Renal Cell Carcinoma	327
Hematopoietic Malignancies	329
Metastatic Melanoma	330
15. Non-Neoplastic Tumors and Tumor-Like Lesions	335
Solid Lesions of the Exocrine Pancreas	335
Chronic Pancreatitis	336
Lymphoplasmacytic Sclerosing Pancreatitis (Autoimmune Pancreatitis)	343
Reactive Fibroinflammatory Pseudotumor	348
Heterotopic Pancreas	349
Heterotopic Spleen	351
Hamartoma	351
Miscellaneous Solid Lesions	352
Cystic Lesions of the Exocrine Pancreas	353
Pseudocyst	354
Paraampullary Duodenal Wall Cyst (Groove Pancreatitis)	356
Ductal Retention Cyst and Mucinous Non-neoplastic Cyst	358
Congenital Cyst	360
Lymphoepithelial Cyst	361
Epidermoid Cyst in Intrapancreatic Heterotopic Spleen	363
Miscellaneous Cystic Lesions	364
Lesions of the Endocrine Pancreas	364
Islet Hyperplasia	364

Islet Aggregation	364
Nesidioblastosis	367
Islet Dysplasia	369
16. Dissection and Reporting of Pancreatic Resection Specimens	377
Dissection	377
Pancreatoduodenectomy (Whipple) Specimen	377
Distal Pancreatectomy	381
The Pathology Report	385
17. Diagnostic Evaluation of Pancreatic Neoplasms	387
Diagnosis of Ductal Adenocarcinoma	387
Biopsy Interpretation	387
Liver and Peritoneal Biopsies	394
Diagnosis of the Solid Cellular Pancreatic Neoplasm	396
Diagnosis of the Cystic Pancreatic Neoplasm	399
Cytologic Evaluation of Pancreatic Neoplasms	403
Specimen Preparation	403
Bile Duct Brushing Cytology	403
Fine Needle Aspiration Biopsy	403
Gastrointestinal Contamination	404
Solid Masses	405
Cystic Lesions	408
Index	413
