

## CONTENTS

1. Developmental, Physiologic, and Anatomic Aspects of Adrenal Cortex and Medulla . . .	1
Embryology and Biosynthetic Pathways . . . . .	1
Embryologic Development of the Adrenal Cortex . . . . .	1
Biosynthetic Pathway of Adrenal Corticosteroids . . . . .	4
Embryologic Development of Adrenal Medulla . . . . .	4
Biosynthesis of Catecholamines . . . . .	6
Function of Fetal Adrenal Glands . . . . .	9
Anatomy of Adrenal Glands. . . . .	9
Adrenal Weight . . . . .	9
Gross Anatomy. . . . .	10
Microscopic Anatomy of Fetal and Newborn Adrenal Cortex . . . . .	14
Microscopic Anatomy of Adult Adrenal Cortex . . . . .	14
Microscopic Anatomy of Adrenal Medulla . . . . .	20
Anatomy of Adrenal Vasculature . . . . .	24
Immunohistochemistry of Adrenal Cortex and Distribution of Steroidogenic Enzymes . . . . .	26
Immunohistochemistry . . . . .	26
Distribution of Steroidogenic Enzymes . . . . .	27
Chromaffin Reaction and Immunohistochemistry of Adrenal Medulla . . . . .	28
Miscellaneous Microscopic Features . . . . .	28
Adrenal Cytomegaly. . . . .	28
Focal “Adrenalitis” . . . . .	29
Ovarian Thecal Metaplasia. . . . .	29
Other Features . . . . .	31
Electron Microscopy. . . . .	32
Adrenal Cortex . . . . .	32
Adrenal Medulla. . . . .	33
Molecular Mediation of Endocrine Development . . . . .	35
2. Congenital Adrenal Heterotopia, Hyperplasia, and Beckwith-Wiedemann Syndrome . .	39
Adrenal Adhesion, Union, and Fusion. . . . .	39
Heterotopic and Accessory Adrenal Tissues. . . . .	40
Congenital Adrenal Hyperplasia . . . . .	42
Pathology of Adrenal Glands in CAH . . . . .	46
Adrenal Cortical Neoplasms in the Setting of CAH. . . . .	46
Testicular Tumors in the Setting of CAH . . . . .	48

Other Tumors in the Setting of CAH . . . . .	51
Beckwith-Wiedemann Syndrome. . . . .	52
3. Adrenal Cortical Nodules and Tumor-Like Lesions . . . . .	57
Adrenal Cortical Hyperplasia . . . . .	57
Adrenal Cortical Adenoma (Nodule) with Eucorticalism . . . . .	58
Adrenal Cortical Nodule(s) at Autopsy . . . . .	58
Incidental Pigmented Cortical Nodule(s) . . . . .	64
Serendipitous Cortical Adenoma Discovered in Vivo (“Incidentaloma”). . . . .	66
Adrenal Cortical Hyperplasia with Hypercortisolism . . . . .	70
Pituitary-Dependent Hypercortisolism (Cushing’s Disease) . . . . .	73
Diffuse and Micronodular Hyperplasia . . . . .	73
Macronodular Hyperplasia. . . . .	74
Macronodular Hyperplasia with Marked Adrenal Enlargement . . . . .	76
Primary Pigmented Nodular Adrenocortical Disease. . . . .	80
Complex of Myxomas, Spotty Pigmentation, and Endocrine Overactivity (Carney’s Complex) . . . . .	86
Ectopic ACTH Syndrome with Hypercortisolism. . . . .	87
Multiple Endocrine Neoplasia Syndrome Type 1 . . . . .	89
Adrenal Hyperfunction with Primary Hyperaldosteronism . . . . .	91
Unilateral Adrenal Cortical Hyperplasia . . . . .	93
4. Adrenal Cortical Adenoma. . . . .	99
Incidence and Clinical Features. . . . .	99
Adrenal Cortical Adenoma with Cushing’s Syndrome . . . . .	99
Functional Pigmented (“Black”) Adenomas . . . . .	111
Adrenal Cortical Adenoma with Primary Hyperaldosteronism (Conn’s Syndrome) . .	112
Adrenal Cortical Neoplasms with Virilization or Feminization . . . . .	124
Oncocytic Adrenal Cortical Adenoma . . . . .	124
5. Adrenal Cortical Carcinoma. . . . .	131
Incidence and Clinical Features. . . . .	131
Imaging Characteristics . . . . .	133
Gross Findings . . . . .	133
Microscopic Findings . . . . .	134
Architectural Patterns. . . . .	134
Cellular Morphology . . . . .	136
Invasion . . . . .	143
Stromal Alterations in Tumor . . . . .	144
Ultrastructural Findings . . . . .	144
Immunohistochemical Findings . . . . .	147

Molecular Genetics, Differential Diagnosis, and Cellular Proliferation . . . . .	147
Fine Needle Aspiration Biopsy . . . . .	150
DNA Quantification and Ploidy Patterns. . . . .	150
Criteria for Malignancy and Grading. . . . .	152
Prognosis and Patterns of Metastasis . . . . .	153
Staging . . . . .	155
Unusual Variants of Adrenal Cortical Carcinoma . . . . .	155
Oncocytic Adrenal Cortical Carcinoma. . . . .	155
Adrenal Carcinosarcoma . . . . .	155
Adrenal Cortical Blastoma . . . . .	155
6. Adrenal Cortical Neoplasms in Childhood . . . . .	161
Incidence and Epidemiology . . . . .	161
Age, Sex Distribution, and Laterality . . . . .	162
Clinical Features . . . . .	162
Gross Findings . . . . .	164
Microscopic Findings . . . . .	166
Prognostic Factors and Biologic Behavior . . . . .	171
Hemihypertrophy and Other Abnormalities . . . . .	174
Beckwith-Weidemann Syndrome and Adrenal Cytomegaly . . . . .	175
Cancer Family Syndrome (Li-Fraumeni or SBLA Syndrome). . . . .	176
Congenital Adrenal Hyperplasia . . . . .	176
Adrenal Cortical Blastoma . . . . .	176
7. Other Neoplasms and Tumor-Like Lesions of the Adrenal Glands . . . . .	181
Adrenal Enlargement Due to Infection or Abscess Formation . . . . .	181
Adrenal Enlargement with Hemorrhage, Hematoma Formation, and Calcification . . . . .	183
Adrenal Cysts . . . . .	185
Myelolipoma . . . . .	189
Primary Malignant Melanoma. . . . .	196
Primary Malignant Lymphoma . . . . .	197
Primary Mesenchymal Tumors . . . . .	197
Vascular Neoplasms . . . . .	197
Smooth Muscle Neoplasms . . . . .	201
Other Unusual Primary Tumors. . . . .	205
Neural Tumors . . . . .	205
Adenomatoid Tumor . . . . .	205
Other Rare Primary Tumors . . . . .	205
8. Tumors Metastatic to Adrenal Glands . . . . .	215
Incidence and Primary Sites of Tumors Metastatic to Adrenal Glands . . . . .	215

Secondary Adrenal Cortical Insufficiency (Addison's Disease) . . . . .	217
Imaging Characteristics of Metastatic Disease . . . . .	220
Pathology and Differential Diagnosis . . . . .	220
Involvement of Adrenal Glands by Malignant Lymphoma and Leukemia . . . . .	223
Secondary Involvement by Other Malignant Tumors . . . . .	225
9. Adrenal Medullary Hyperplasia and Multiple Endocrine Neoplasia (MEN)	
Syndrome Type 2 . . . . .	231
Adrenal Medullary Hyperplasia . . . . .	231
Sporadic Adrenal Medullary Hyperplasia . . . . .	231
Familial Adrenal Medullary Hyperplasia . . . . .	233
Multiple Endocrine Neoplasia Syndromes . . . . .	233
MEN Syndrome Type 2a (Sipple's Syndrome) . . . . .	233
MEN Syndrome Type 2b . . . . .	233
Pathology of AMH and Distinction from Pheochromocytoma . . . . .	233
Proliferative Lesions of Adrenal Medulla in Rats . . . . .	236
10. Pheochromocytoma . . . . .	241
Incidence . . . . .	241
Age, Sex Distribution, and Laterality . . . . .	241
Patterns of Catecholamine Secretion . . . . .	242
Preoperative Localization and Imaging Characteristics . . . . .	242
Sporadic Pheochromocytoma . . . . .	244
Gross Findings . . . . .	244
Microscopic Findings . . . . .	246
Familial Pheochromocytoma . . . . .	260
Pheochromocytomas in MEN Syndrome Types 2a and 2b . . . . .	261
Men Syndrome Type 2b . . . . .	262
Other Associated Endocrine Disorders . . . . .	265
Gastric Stromal Sarcoma, Pulmonary Chondroma, and Extraadrenal Paraganglioma (Carney's Triad) . . . . .	265
Composite Pheochromocytoma . . . . .	266
Pheochromocytoma in Childhood . . . . .	272
Pseudopheochromocytoma . . . . .	274
Malignant Pheochromocytoma . . . . .	274
11. Extraadrenal Paraganglia, Paragangliomas, and Other Features of Sympatho- adrenal Paragangliomas . . . . .	283
Extraadrenal Paraganglia . . . . .	283
Gross Anatomy . . . . .	283
Microscopic Anatomy . . . . .	284

Physiologic Function . . . . .	286
Immunohistochemical and Ultrastructural Features. . . . .	287
Extraadrenal Paragangliomas . . . . .	288
Extraadrenal Intraabdominal Paragangliomas . . . . .	288
Urinary Bladder Paragangliomas . . . . .	293
Unusual Abdominal and Pelvic Sites of Paragangliomas. . . . .	297
Intrathoracic Paravertebral Paragangliomas . . . . .	297
Cervical Paravertebral Paragangliomas . . . . .	298
Functioning Paraganglioma and Gastrointestinal Stromal Tumor of the Jejunum . . .	299
Ultrastructural and Other Features of Sympathoadrenal Paragangliomas . . . . .	299
Unusual Neoplasms . . . . .	312
Gangliocytic Paraganglioma . . . . .	312
Paraganglioma of Cauda Equina . . . . .	312
Glomus Coccygeum . . . . .	313
12. Paraganglia of the Head and Neck Region . . . . .	323
Paraganglia as Part of a Diffuse Neuroendocrine System . . . . .	324
Physiologic Function of Carotid Body in Experimental Animals . . . . .	325
Physiologic Function of Chemoreceptors in Humans. . . . .	327
Nomenclature of Paragangliomas . . . . .	327
13. Carotid Body Paraganglia and Paragangliomas . . . . .	331
Carotid Body Paraganglia. . . . .	331
Gross Anatomy. . . . .	331
Microscopic Anatomy . . . . .	332
Ultrastructural Anatomy . . . . .	334
Hyperplasia of Carotid Body Paraganglia . . . . .	337
Risk for Development of Chemodectoma Under Normobaric Conditions. . . . .	339
Carotid Body Paraganglioma . . . . .	340
Clinical Features. . . . .	341
Preoperative Localization Studies . . . . .	343
Familial and Multicentric Paragangliomas . . . . .	343
Association with Other Endocrine Disorders. . . . .	346
Pathologic Findings . . . . .	347
Treatment and Prognosis . . . . .	354
14. Jugulotympanic Paraganglioma . . . . .	365
Jugulotympanic Paraganglia . . . . .	365
Jugulotympanic Paraganglioma. . . . .	366
Tympanic Paraganglioma. . . . .	367
Jugular Paraganglioma . . . . .	367

	Hormonal Manifestations of JTPs . . . . .	370
	Pathologic Findings of JTPs . . . . .	370
	Differential Diagnosis of JTPs . . . . .	371
	Treatment and Prognosis of JTPs . . . . .	374
	Other Intracranial Paragangliomas . . . . .	376
15.	Vagal Paraganglioma . . . . .	379
	Vagal Paraganglia . . . . .	379
	Anatomy of the Rostral Vagus Nerve . . . . .	379
	Distribution and Normal Microanatomy of Vagal Paraganglia . . . . .	379
	Hyperplasia of Vagal Paraganglia . . . . .	380
	Parathyroid Tissue Within the Vagus Nerve . . . . .	383
	Vagal Paraganglioma . . . . .	383
16.	Laryngeal Paraganglioma . . . . .	393
	Laryngeal Paraganglia . . . . .	393
	Laryngeal Paraganglioma . . . . .	393
17.	Aorticopulmonary Paraganglioma and Paragangliomas at Other Sites in the Head and Neck Region . . . . .	401
	Aorticopulmonary Paraganglia . . . . .	401
	Aorticopulmonary Paraganglioma . . . . .	402
	The Endocrine Lung and Pulmonary Chemoreceptors: Innervated Clusters of Pulmonary Neuroendocrine Cells . . . . .	405
	Pulmonary Paraganglia . . . . .	406
	Pulmonary Paraganglioma . . . . .	406
	Paragangliomas at Other Sites in the Head and Neck Region . . . . .	408
	Orbital Paraganglioma . . . . .	408
	Carcinoid Tumors . . . . .	411
	Paraganglioma of Nasal Cavity and Nasopharynx . . . . .	411
	Primary Thyroid Paraganglioma . . . . .	412
	Paragangliomas in Other Locations . . . . .	415
18.	Ultrastructural and Other Features of Paragangliomas of the Head and Neck Region . . .	421
	General Features . . . . .	421
	Ultrastructural Findings . . . . .	421
	Immunohistochemical Findings . . . . .	424
	S-100 Protein-Positive Cells and Prognosis . . . . .	427
	Molecular Genetics . . . . .	428
	Fine Needle Aspiration Biopsy and Cytologic Findings . . . . .	429
	Quantitative Determination of DNA Content . . . . .	431

19. Neuroblastoma, Ganglioneuroblastoma, and Other Related Tumors . . . . .	435
Neuroblastoma and Ganglioneuroblastoma . . . . .	435
Epidemiology . . . . .	435
Mass Screening Programs for Neuroblastoma . . . . .	436
Anatomic Distribution of Primary Tumors . . . . .	437
Staging Systems . . . . .	437
In Situ Neuroblastoma . . . . .	440
Stage IV-S Neuroblastoma . . . . .	441
Gross Findings . . . . .	442
Microscopic Findings . . . . .	444
Grading and Other Prognostic Factors . . . . .	450
Spontaneous Regression or Maturation . . . . .	458
Survival and Patterns of Metastasis . . . . .	459
Differential Diagnosis of Neuroblastoma . . . . .	462
Ganglioneuroma . . . . .	463
Masculinizing Ganglioneuroma . . . . .	465
20. Ultrastructural, Immunohistochemical, and Other Features of Neuroblastomas and Related Tumors . . . . .	477
Ultrastructural Findings . . . . .	477
Neuroblastoma and Ganglioneuroblastoma . . . . .	477
Ganglioneuroma . . . . .	478
Immunohistochemical Findings . . . . .	479
Fine Needle Aspiration Biopsy and Cytologic Findings. . . . .	484
Quantification of DNA and Nucleolar Organizer Regions. . . . .	485
Cytogenetic Studies and Molecular Pathology . . . . .	486
Index . . . . .	493
