

CONTENTS

1.	Microscopic Neuroanatomy	1
	Regional Neuroanatomy	1
	Meninges	1
	Cerebral Cortex	4
	White Matter	9
	Deep Gray Matter.	11
	Pineal Gland.	14
	Brain Stem	15
	Cerebellum	15
	Cranial Nerves	18
	Spinal Cord.	19
	CNS Cell Types	21
	Neurons	21
	Astrocytes	23
	Oligodendrocytes and Myelin	24
	Ependyma	24
	Choroid Plexus.	27
	Microglia	28
	Vasculature	28
2.	Microscopic Neuropathology	29
	Glia	29
	Astrocytosis	29
	Other Glial Cells.	41
	Neurons	42
	Hypoxia/Ischemia	43
	Mineralization	43
	Spongiform Change.	43
	Chromatolysis	43
	Axonal Spheroids	48
	Wallerian Degeneration	48
	Central Neuroma	48
	Neuronophagia and Other Signs of Neuronal Loss.	48
	Aging and Pigment	49
	Inclusions and Storage Material.	50
	Meninges	50
	Blood Vessels	52

	Schwann Cells	52
	Inflammation	52
	Cerebral Edema	55
3.	Technical Considerations in the Handling of Surgical Specimens	57
	Basic Approaches	57
	Specimen Triage	57
	Frozen Section	57
	Smear Preparation	58
	Electron Microscopy	58
	Snap Freezing	58
	Fixation and Processing	60
	Staining	60
	Specimen Types	60
	Stereotactic Biopsies	61
	Open Biopsies	61
	Resection/Lobectomy Specimens	62
	Meningeal Biopsies	63
4.	Diagnostic Approach to Brain Biopsy Interpretation	65
	General Comments	65
	Clinicopathologic Correlation	65
	Location	66
	Current Clinical Course, Physical Findings, and Medications	69
	Age and Gender	69
	Past Medical and Family History	70
	Laboratory Findings	71
	Neuroimaging Features	71
5.	Ischemia, Infarct, and Intracerebral Hemorrhage	73
	Cerebral Ischemia	73
	Global Ischemia	74
	Cerebral Infarct	80
	Intracerebral Hemorrhage	92
6.	Vascular Disorders	101
	Vascular Malformations	101
	Arteriovenous Malformation	101
	Cavernous Angioma (Cavernous Malformation)	108
	Venous Angioma	111
	Capillary Telangiectasia	112
	Dural Arteriovenous Fistula (Foix-Alajouanine Syndrome)	112
	Vasculitides	113

	Giant Cell Arteritis	114
	Primary Angiitis of the Central Nervous System	116
	Systemic Vasculitides Involving the Central Nervous System	117
	Noninflammatory Vasculopathies	120
	Cerebral Amyloid Angiopathy	120
	Cerebral Autosomal Dominant Arteriopathy with Subcortical Infarcts and Leukoencephalopathy	123
	Arteriolar Sclerosis	125
	Brain Embolism and Thrombosis	126
7.	Infectious Diseases	131
	Basic Definitions	131
	General Approach to CNS Infections	132
	Meningeal Infections	134
	Acute Bacterial Meningitis	134
	Acute Viral Meningitis	137
	Chronic Bacterial Meningitis	139
	Tuberculosis	139
	Viral Infections	140
	Herpes Simplex Encephalitis	142
	Varicella Zoster	144
	Progressive Multifocal Leukoencephalopathy	145
	Human Immunodeficiency Virus	147
	Cytomegalovirus	148
	West Nile Virus	150
	Other Arbovirides	150
	Bacterial Infections	152
	Acute Meningoencephalitis	152
	Brain Abscess	152
	Actinomycosis	154
	<i>Nocardia</i>	154
	Neurosyphilis	156
	Leptospirosis	158
	Lyme Disease	159
	Whipple Disease	159
	Fungal Infections	160
	Mucormycosis	160
	Aspergillosis	162
	Cryptococcosis	163
	Coccidioidomycosis	165

	Blastomycosis	166
	Candidiasis	167
	Histoplasmosis	168
	Chromoblastomycosis	169
	Parasitic Infections	171
	Toxoplasmosis	171
	Cysticercosis	173
	Amebiasis	174
	Schistosomiasis	176
	Malaria	178
8.	Inflammatory Diseases	183
	General Diagnostic Approach	183
	Processes with Discrete Mass Lesions: Granulomatous Lesions	185
	Sarcoidosis	186
	Rheumatoid Disease	193
	Histiocytic Lesions	196
	Langerhans Cell Histiocytosis	196
	Rosai-Dorfman Disease	200
	Chester-Erdheim Disease	203
	Juvenile Xanthogranuloma	206
	Choroid Plexus Xanthogranuloma	208
	Extramedullary Hematopoiesis of the Dura Mater	210
	Castleman Disease	212
	Inflammatory Myofibroblastic Tumor/Inflammatory Pseudotumor/Plasma Cell Granuloma	216
	Other Entities	220
	Processes with Diffuse Dural Abnormalities	221
	Intracranial Hypotension	221
	Idiopathic Hypertrophic Pachymeningitis	223
9.	Demyelinating Diseases	231
	Acute Demyelinating Diseases	231
	Acute Demyelinating Disease and Multiple Sclerosis	232
	Postinfectious/Inflammatory Demyelinating Diseases: Acute Disseminated Encephalomyelitis and Acute Hemorrhagic Leukoencephalitis (Weston Hurst Syndrome)	243
	Hereditary Demyelinating Diseases	250
	“Secondary” Demyelinating Diseases	250
10.	Dementia	253
	General Diagnostic Approach	253

Deposits and Inclusions	255
Plaques	255
Tangles and Other Tau Immunoreactive Deposits.	257
Lewy Bodies and Other Alpha-Synuclein Immunoreactive Deposits	260
Ubiquitin Immunoreactive Deposits	263
Other Immunologically Identified Deposits	263
Classic Neurodegenerative Diseases.	263
Alzheimer Disease	263
Dementia with Lewy Bodies	271
Tauopathies	275
Argyrophilic Grain Disease	282
Other Inclusion Body Diseases.	283
Prion Diseases.	283
Subacute Sclerosing Panencephalitis	293
Inflammatory and Immune-Mediated Diseases.	296
Paraneoplastic Syndromes	296
Other Inflammatory Processes.	299
Metabolic Disorders	300
Vascular Diseases	300
Vasculitis	301
Cerebral Amyloid Angiopathy with Inflammation	301
Hypertension/Binswanger Disease.	301
CADASIL.	301
11. Trauma	309
Contusion.	309
Epidural Hematoma	318
Subdural Hematoma.	320
12. Metabolic Diseases	329
General Diagnostic Approach	329
Neuronal Storage Disorders	332
Neuronal Ceroid Lipofuscinosis.	333
Gangliosidoses	335
Niemann-Pick Disease	336
Leukodystrophies	337
Adrenoleukodystrophy and Adrenomyeloneuropathy	338
Metachromatic Leukodystrophy	340
Krabbe Disease	341
Pelizaeus-Merzbacher Disease	342
Alexander Disease	343

	Canavan Disease	345
	Vanishing White Matter Disease	345
	Other Rare Leukodystrophies.	346
	Mitochondrial Encephalopathies.	349
	Other Metabolic Diseases.	349
13.	Seizure Disorders and Malformations	355
	Hippocampal Sclerosis	355
	Malformative Lesions.	360
	Cortical Dysplasia	360
	Cerebral Heterotopia	366
	Hemimegalencephaly	371
	Meningioangiomas.	374
	Other Hamartomas.	376
	Tuberous Sclerosis.	377
	Sturge-Weber Syndrome.	386
	Rasmussen Syndrome.	389
	Chaslin Gliosis, Alexander Disease, and Trauma.	392
	Neural Tube Closure Abnormalities.	393
	Anterior Neural Tube Closure Abnormalities: Cephalocele, Encephalocele, and Nasal Glioma	394
	Caudal Neural Tube Closure Abnormalities: Myelomeningocele and Spinal Meningocele.	397
	Spina Bifida Occulta: Tethered Cord Syndrome, Dermal Sinuses, and Spinal Lipomas	403
14.	Reaction to Neoplasms and Antineoplastic Therapies.	413
	Reaction to Gliomas.	413
	Diffuse Gliomas	413
	Well-Demarcated Gliomas	414
	Optic Nerve Glioma.	415
	Reaction to Lymphoma and Steroid Therapy	416
	Reaction Adjacent to Meningiomas.	418
	Reaction to Other Neoplasms	419
	Reaction to Antineoplastic Therapies	420
	Cerebral Radiation Damage	420
	Reaction to Chemotherapy	426
	Disseminated Necrotizing Leukoencephalopathy.	426
	Reaction to Gene Therapy	428
	Index	431
